## **DETAILED ACTION**

### ***EXAMINER'S AMENDMENT***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with William K. Baxter on June 14, 2004.

The application has been amended as follows:

In claim 1, line 12, "plattling" has been changed to --plating--.

In claim 1, lines 13 - 14, "higher than a surface," has been changed to --higher than a portion of the upper surface--.

In claim 8, lines 12 - 13, "higher than a surface," has been changed to --higher than a portion of the upper surface--.

### ***REASONS FOR ALLOWANCE***

3. The following is an examiner's statement of reasons for allowance:

See that Hayama et al. (5,609,704) discloses in Fig. 10 an insulative substrate; conductor pattern that has a bigger bottom surface area than the top surfaces area; and a protection film

covering the lower portion of the conductor pattern and exposing the top portion of the conductor pattern.

However, the claims as amended on April 19, 2004 added a new limitation “a plating for coating the top surface and the upper portion of the side surfaces of the conductor pattern, wherein the plating has an uppermost portion located at a position higher than a some portion of the upper surface of the protection film”. Hayama et al. does not disclose this new limitation.

The above amended limitation in combination with all the language recited in the claims makes up for a structure that is neither obvious over nor anticipated by the prior art of record. The claims are allowable since the prior art fails to teach or reasonably suggest, either singularly or in combination to anticipate the invention as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chris C. Chu whose telephone number is 571-272-1724. The examiner can normally be reached on 11:30 - 8:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on 517-272-1664. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
